

Choosing a Template/Organizer Customizing and Print

In this exercise you will learn to locate a rich collection of graphic organizers to customize and print

1. Locate **Think Technology** links on the homepage.
2. Select **Graphic Organizers**.

Select
Graphic
Organizers
from the
homepage

4. Choose an organizer that looks interesting to you. Select the **HTML** version.

Graphic Organizers

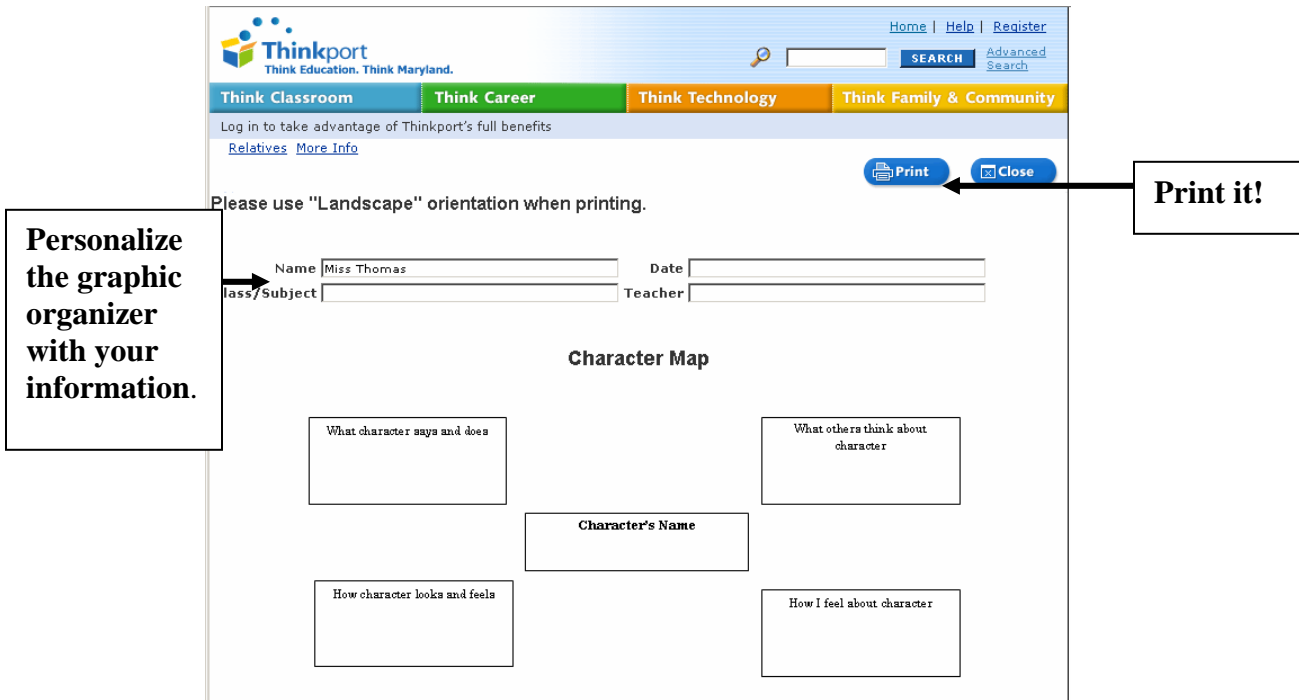

We offer a collection of pre-formatted graphic organizers that you can integrate into activities and lesson plans or use by themselves. We offer three different formats for your convenience:

- HTML, which is viewable with any browser
- PDF which is viewable with the free [Adobe Acrobat Reader](#).
- Word, which is viewable using Microsoft Word®

Item	Description	Version
Character Map	Helps describe in detail the main character, their thoughts and actions. Good for short stories and novels.	HTML PDF WORD
Clustering	Good for organization of concepts, ideas, and as a pre-reading activity.	HTML PDF WORD
Compare/Contrast	Helps with similarities and differences in characters, situations, and concepts.	HTML PDF WORD
Concept Map	Good pre-writing activity. Helps with organization of main ideas and details.	HTML PDF WORD
Cornell Note-taking	Good for organizing information gained from reading textbooks or expository materials.	HTML PDF WORD
Fishbone	Good for organizing details and events through cause and effect.	HTML PDF WORD
Hypothesizing	Good in helping to identify the three main components of an hypothesis.	HTML PDF WORD

Each graphic
organizer is available
in **HTML**, **PDF** and
WORD formats.

5. Customize with the teacher, subject and date.
6. Under the **File** menu select **print**.

The screenshot shows the Thinkport website interface. At the top, there is a navigation bar with links for Home, Help, and Register. Below this is a search bar and a 'SEARCH' button. The main navigation menu includes 'Think Classroom', 'Think Career', 'Think Technology', and 'Think Family & Community'. A 'Print' button is visible in the top right corner. The main content area features a form for personalizing the graphic organizer. The form includes fields for Name (pre-filled with 'Miss Thomas'), Date, Class/Subject, and Teacher. Below the form is a 'Character Map' graphic organizer with four boxes: 'What character says and does', 'What others think about character', 'Character's Name', 'How character looks and feels', and 'How I feel about character'. Two callout boxes are present: one on the left pointing to the form fields with the text 'Personalize the graphic organizer with your information.', and one on the right pointing to the 'Print' button with the text 'Print it!'.

NOTE: Thinkport’s graphic orgznizers are available in three different formats. Each version allows the user different options. The HTML example used above enables the user to customize some fields prior to prints such as name, date, class/subject and teacher. The PDF format will open and print from Adobe Acrobat Reader and cannot be changed. While the Microsoft Word version can be saved to your computer and entirely customized.
