

Building a Web Site

In this exercise learn how to choose the template that is most appropriate for you to start planning and building your Thinkport Web Site.

STEPS:

1. Log in to Thinkport
2. Locate the tools on the left-hand side and select **My Web Site**.

Thinkport Tools and My Web Site

Think Classroom	Think Career	Think Technology	Think Family & Community

Thinkport's templates for Elementary, Middle, High School or Professional Development are available below. You may also try Thinkport's Web Site Builder, which will guide you through every step of the process.

You can start by choosing the **Select** button.

- Select** **Middle**
Middle School classroom and course information.
- Select** **Electronic Portfolio**
Educational goals, journal, and resume.
- Select** **Elementary**
Elementary School classroom and supply list.
- Select** **High**
High School classroom, student work, syllabus, and extracurricular activities.
- Select** **Do not use a Template**
Empty template description

4. Select the title of a page to begin adding content to your web site. The builder offers instructions as you go. For more detailed information, use the **Web Site Builder How-to** (from the Think Technology section) to guide you through the building process.
